

Drone Engineering

St. Tammany Parish Public Schools in conjunction with Embry Riddle Aeronautical University is offering a **Drone Engineering** course for the 2018-19 school year.

The class is designed to introduce students to drone technology and their application in commercial ventures with a focus on their use in the Agriculture fields. Students will take several certification tests including the Part 107 Remote Pilots test and a Drones in Agriculture certification exam. **Classes will be held at Lakeshore High on Tuesdays and Thursdays from 5:00 pm to 7:00 pm. Students will earn a Carnegie credit in Drone Engineering. The course is limited to an enrollment of 20 students.**
