

Hello. This is April Jarrell, Principal of Lakeshore High School. We are looking forward to seeing students return to school tomorrow. We realize there has been conflicting information in our community and on social media regarding the governor's mandate for face masks in schools. We must follow this mandate and I'm asking everyone to please cooperate and send your child to school with a face mask. We want the first day of school to be a smooth one for our students. If your child has a diagnosed medical condition that would prevent them from wearing a mask, we have the same process in place as last year for medical mask exemptions. You can find the official STPPS medical mask exemption form and our COVID Health and Safety guidelines on our district website at www.stpsb.org. We will not be able to honor any non-official exemption forms. We are asking all families to please comply with the mask mandate in place and let's work together to have a successful start to school. I hope everyone has a great first day of school. Thank you and as always, Win the Day.
